Success Story Book 1: The Kingdom Rises

22 2 3

Chapter 1 by Seizefire

This story is about the kingdom of Dynastia, but it's nothing like it's name. It's like a big minefield that was walked on a lot. There were lots of deteriorated buildings everywhere in this kingdom. Most people gave up on this former glory and joined into another kingdom, but some never gave up.

These people were going to be the new success of the world. They will be the first to fly right through the age of Medievalism, and into the Space Age. They will be the one that will overcome the great, they will look down at the ones who mocked them, and with a smile, will give their friends and ones who supported them wealth.

Recently, the kingdom of Dynastia has been removed from the maps because of their abundance of deficiencies, the food, water, tools, land, air, education, military, nearly everything. But soon their location on the map will be return because of their soon-coming abundance of efficiencies, but their place won't not be restored as Dynastia, but as Tommorowland.

Land Greer was the leader of the revolution that overthrew the Kingdom of Dynastia. He was the one who inspired the people to switch sides and become the rebels.

"My dear fellow citizens. Look around you! What do you see, ruins? Rubble? I see a glorious past, and from its seeds we can grow a glorious future!" he began his speech.

People worshiped him as a savior. His reforms were vast, and he did well rebuilding. But to him and some of the others the progress was too slow, the relied too much on volunteers and people's free time. His military police soon started arresting more people, but instead of jail, slavery became the punishment of choice. He called it mercy, but indeed it was simply ingenuity. The slaves worked tirelessly and without pay. The progress at which the rebuilding sped up was astounding. If so few slaves could make a difference... what could thousands do?
